CEMETERIES BOARD

## **GUIDE TO THE PREPARATION OF SUBMISSIONS TO THE MONUMENT ASSESSMENT & ADVISORY COMMITTEE (MAAC)**

The Monument Assessment and Advisory Committee (MAAC) comprises of historians, heritage architects, representatives of the Office of Australian War Graves (Western Australia), community representatives, and members of the Metropolitan Cemeteries Board.

Families whose gravesite is not listed for retention may wish to make a submission for consideration by the MAAC for the gravesite to be retained.

Monuments are generally assessed across a number of criteria including but not limited to the historical significance of the monument (monumental craftsmanship). In addition, the contributions made by those interred to pioneering Western Australia are also given due consideration.

Should you or your family wish to make a submission to the MAAC, the following provides a brief guide to the type of information that may be included. This will allow the Committee to make an informed assessment on the basis of your submission.

### **Conditions relating to submissions:**

- Submissions should include unique information, of historical or personal interest, which the MAAC may not have been aware of when the monument was assessed.
- Proforma or campaign-based submissions from one or multiple parties may not be considered unless they provide information that is viewed to be of value.
- The receipt of a submission does not guarantee that a headstone or monument will remain in situ following renewal.
- MAAC decisions are final as a submission will be thoroughly assessed and considered.
- All submissions to the MAAC will be responded to in writing. Individuals making multiple submissions within any one area may only receive one written response regarding overall outcomes.
- Should you wish to include any attachments in support of your submission please send copies only.
